MCA 2026 Graduate | Full Stack Developer (Web & AI Projects)

EDUCATION

MET's Bhujbal Knowledge City, Institute of Management

Master of Computer Applications (MCA)

– CGPA: 7.45/10.0

Nashik, Maharashtra

Aug 2024 – July 2026

K.R.T. Arts, B.H. Commerce and A.M. Science College

Bachelor of Commerce (B.Com)

– CGPA: 7.45/10.0

Nashik, Maharashtra

Jun 2021 – Apr 2023

TECHNICAL SKILLS

Languages: Java (Core/Advanced), Python, C/C++, PHP, JavaScript (ES6+), SQL, HTML5/CSS3

Frameworks: Spring Boot 3.2, Node.js (Express), Flask, React.js, Bootstrap, Tailwind CSS, Hibernate

Developer Tools: Git, GitHub, VS Code, Postman, IntelliJ IDEA, Power BI, Maven

Concepts: RESTful APIs, Microservices, MVC Architecture, CI/CD, Agile/Scrum, Data Structures, JWT Auth, RBAC

PROFESSIONAL EXPERIENCE

Bitroot Powerhouse Pvt Ltd

Software Developer Internship

Hybrid (Mulund West)

26/12/2025 – 30/06/2026

- Served as a Full Stack Development Apprentice, contributing to end-to-end development of web applications and collaborating closely with the core technical team.
- Worked under direct mentorship of the Founder, enhancing skills in version control, project structuring, and production-level deployment within a professional startup environment.

Infosys Springboard Virtual Internship 6.0

Java Full Stack Developer Intern

Remote

01/10/2025 – 30/11/2025

- Engineered secure REST APIs integrating JWT authentication, reducing unauthorized access attempts by 40% during security testing.
- Optimized complex MySQL queries and implemented indexing, slashing data retrieval latency by 35% for the service booking module.
- Collaborated within an Agile team environment, conducting code reviews and managing version control via Git to reduce merge conflicts by 20%.

Writer Information Pvt. Ltd.

Associate (Back-Office Operations)

Nashik, Maharashtra

24/08/2023 – 08/03/2024

- Processed and verified 150+ loan documents monthly, consistently maintaining a 90% accuracy rate and exceeding team targets.
- Streamlined document workflow processes, resulting in a 15% reduction in average turnaround time for client deliverables.
- Maintained strict compliance with banking regulations, ensuring zero compliance violations during internal audits. Exposure to enterprise banking workflows motivated the transition into Full Stack Development via MCA, applying process-optimization thinking to software design.

PROJECTS

FixItNow: Neighborhood Services Marketplace | Spring Boot, React.js, MySQL |

github.com/bmanish55/fixitnow

- Developed a full-stack platform enabling service discovery, achieving a 40% improvement in user engagement through a responsive React.js interface.
- Designed a robust booking system with role-based access control (RBAC), securing sensitive user data for all users.
- Deployed the application using industry-standard CI/CD practices, ensuring seamless integration and delivery.

MoodBeats: AI Emotion Recognition System | Python, Flask, CNN, OpenCV |

github.com/bmanish55/moodbeats

- Built a multimodal emotion recognition model using Convolutional Neural Networks (CNN), achieving an emotion detection accuracy of 85%.
- Integrated a Flask backend to process live video feeds and recommend music playlists, processing frames in under 2 seconds.
- Leveraged computer vision libraries (OpenCV) to analyze facial expressions in real-time, enhancing user personalization.

Marketing Banner Generation Tool | Node.js, Express, OpenAI API | github.com/bmanish55/banner-gen

- Created an automated content generation tool utilizing OpenAI API, reducing manual design time for social media assets.
- Optimized banner generation by integrating Unsplash API for real-time image retrieval, reducing end-to-end processing time to 30 seconds.

CERTIFICATIONS (NPTEL)

Cloud Computing - 82%

Human Computer Interaction (In English) - 95%
